An AI assistant has successfully refactored the legacy codebase, improving performance by 20%.

Coffee Stocks Plunge	4
-----------------------------	----------

Coffee consumption reaches all time low as AI takes over coding tasks.

Local AI Assistant Refactors Codebase

By System | 2023-10-27

In a stunning turn of events, the local AI assistant has managed to refactor the entire legacy codebase overnight. Developers are reportedly 'thrilled' and 'slightly terrified'.

Coffee Stocks Plunge

By Finance Dept | 2023-10-27

With AI writing more code, developers are drinking less coffee to stay awake during late night debugging sessions.
